Too much farm on the second phase. The first phase is cool, but the second one is just stupidly hard. Cannot recommend this game since the achievement is nearly impossible to get and I don't want to be bored during 10 hours only to have a chance to try.. Serious warning: Do NOT purchase from this developer. He just removed the licenses from every user who bought his

game "Simple Story - Alex" from GoGo/Otakubundle (And all of the DLC, too.) His argument: He never got any money from the bundleseller, so he decided to punish the innocent customers (who payed actually money for this) by removing the licenses from their accounts. Interesting: he also announced that his games get "drastically cheaper" in the future.. It's an alright incremental game, If you don't mind a serious grind then this might be fine for you. I got to the second set of stages with the meters and i can't get past the grind just to unlock the shield. so i give up. It might be okay for someone whos spare time is more meaningless to them.. Serious warning: Do NOT purchase from this developer. He just removed the licenses from every user who bought his game "Simple Story - Alex" from GoGo/Otakubundle (And all of the DLC, too.) Cannot recommend this game since the achievement is nearly impossible to get and I don't want to be bored during 10 hours only to have a chance to try.. Too short :( fix it guys! Add machines with drill power, money for purchasing items, etc. Can't even get to load. When I run the game (from Steam) I get the Unity loading screen, and then one that says "Please use Steam to run this game." with an Exit button, and then it will open the Steam webpage to buy the game. Don't waste your money. I had to keep opening the game and exiting to even get the 5 minutes played so that I could leave this review.
